* Subject to complying with the prevailing VAT rules

“The kitchen will be the heart of your client’s new home, and a key selling point. So get it right by choosing an independent kitchen studio that knows your market and works with some of the South East’s premier developers.

We have an inspiring and varied portfolio of recent work, and excellent client testimonials. We also tick all the boxes on this handy checklist. Can your other suppliers say the same?”

Richard Smithies, MD
